## **1. BACK GROUND**

### **1.1 About DRC**

The Danish Refugee Council (DRC) has been providing relief and development services in Sudan since 2014. Using a protection of human rights framework, DRC has mainly focused on refugees who are displaced by conflict and natural disaster. DRC's programs include Protection, Food security & Livelihoods, Shelter/NFI.

### **1.2 Accounting and Financial Management Information**

DRC processes are guided by Policies and Procedures contained in the DRC Operations Handbook. The Operations Handbook documents policies on the following:

- ❖ Procurement and Logistics
- ❖ Accountability
- ❖ Finance
- ❖ Human Resources and Administration
- ❖ Programme Management

DRC uses DRC Dynamics Accounting system, which is a multi-currency accounting software, with the Danish Krone (DKK) and local currency (SDG - The Sudanese Pound) as the base currencies. Data is captured in the currency of expenditure and translated by the system into DKK or SDG for reporting. Each Donor Contract has a designated Project Code that distinctively identifies each contract. Donor Funds received are coded to the relevant Project code and expenses incurred are also charged to the relevant project code and donor reference budget line, hence allowing for expense tracking, monitoring and reporting.

The Sub Offices also have DRC Dynamics and at the end of each month, the transactions are consolidated together and posted to the database by use of journals.

### **1.3 The Auditor, Independence and Qualification**
